Currently Upskilling – Backend Development

• Currently learning Node.js and Express.js to expand my frontend development skills into full-stack web development.
• Building knowledge of RESTful APIs, server-side development, and backend application architecture.
• Exploring MongoDB and database integration to develop dynamic, data-driven web applications.

PROFILE

Professional Summary
Motivated Front-End Developer and BCA graduate (2025) from Chaudhary Charan Singh University, with a strong foundation in HTML, CSS, JavaScript, React.js, and Tailwind CSS. Passionate about building responsive, user-friendly, and visually engaging web applications with clean, maintainable code. Currently expanding my skills in back-end development with Node.js, Express.js, and REST APIs to develop full-stack web applications. Eager to contribute to real-world projects, learn modern technologies, and grow as a developer.
